Framing for the NSAE 2018

We are pleased to be able to offer our framing services for the National Student Art Exhibition in 2018. Having work framed here in Dover prior to selection not only avoids pre framed work arriving damaged by the courier but often works out a lot cheaper on framing and postage costs. If schools send unframed work to the NSAE it should arrive in good time, with clear instructions and definitely no later than the deadline of 28 June to ensure it can be framed in time for selection. You can have your work framed before or after selection. Our frames are all made to Gallery Exhibition standards and are guaranteed to be accepted into the gallery in London where the NSAE exhibition is held.

Our simplified pricing structure is based on a system of standard size frames. This system will suit 90% of the work that is submitted.

We can make frames to your exact specifications but these will be more expensive and the amount of production time available is inevitably short during the lead-up to the show.

Our standard exhibition range is available in three different profiles and two colours (black or white). We are happy to make the choice for you but please let us know if you have a preference.

Exhibition Frame Sizes

This is a list of the standard frame sizes we produce in the square edge mouldings. The mouldings are available in black or white and three different profiles, standard (22 x 22mm), chunky 30 x 25mm and deep (33 x 20mm).

If your picture is not the exact size of any of the available frames, you will need a mount to make it fit. The cost of the mount is dependant on the size and the number of layers of mountboard (a double mount can add a tremendous amount to some pictures by highlighting certain aspects of the colour, feel or mood of the picture). The mount sizes quoted are the frame size NOT the artwork size. We are happy to offer advice on framing and mounting techniques.

Additional Charges

In addition to the frame, there is a charge of £10 for assembling your artwork into the frame. This includes: cleaning the glass, attaching the artwork to the mount, securing the backing board and sealing the back of the picture to prevent dust and moisture ingress. Three dimensional objects may require additional work and materials which we will quote for at the time of submission. We will need a confirmation very quickly as the deadlines are very tight.

Example Price Calculation

If your artwork measures 450mm x 525mm, we will need to use the 500 x 600 mm frame and cut a 500 x 600 mm mount to make it fit the frame.

Frame	£23.00
Single Mount	£6.45
Assembly	£10.00
Total Cost	£39.45

Other Things That Affect The Price

The following things affect the time that it takes to put your picture frame together.

- Three dimensional work such as card/fabric collages, thick objects stuck to the work (such as pasta, buttons, etc).
- Fabrics requiring stretching.
- Items requiring dry mounting such as photographs and prints that don't lay flat.

Our Guarantee

Our frames are all made to Gallery Exhibition standards and are guaranteed to be accepted into the gallery in London where the NSAE exhibition is held.
